

THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

10 June 1983

THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

10 June 1983

NOTE FOR: DDI
FROM : C/NIC

Although long, this is an extremely good treatise on the phenomenon of surprise attack. I am making it required reading for members of the NIC and urge you to read it. There are sections which are less interesting but were required by the dissertation format; but altogether it is a very instructive piece of work. (The middle part can be skimmed.) You should definitely read Chapter 11.

NOTE FOR THE DIRECTOR
FROM: Chairman, NIC

This is the dissertation on surprise attack [] that I mentioned to you yesterday morning. Although long, this is an extremely good treatise on the phenomenon of surprise attack. I am making it required reading for members of the NIC and urge you to read it. There are sections which are less interesting but were required by the dissertation format; but altogether it is a very instructive piece of work. (The middle part can be skimmed.) You should definitely read Chapter 11.
